OUR MISSION

LEVERAGING CUTTING-EDGE TECHNOLOGIES TO CREATE NEW FRONTIERS FOR BUSINESSES AND THEIR CUSTOMERS

MTX is dedicated to delivering exceptional UX, focusing on product innovation and impactful client communication. We harness cutting-edge technologies to drive efficiency gains and foster business growth, transforming traditional models into technologically advanced businesses. Our mission is to empower clients to embrace this technological advancement, optimizing performance and accelerating success.

SELECTED WORK

A selection of top teams and ecosystems we supported to launch and grow their AI or Web3 product

01

FANTIUM
A revolutionary athlete investment platform powered by digital assets

02

MOLECULE
A novel IP-NFT protocol for funding decentralized science
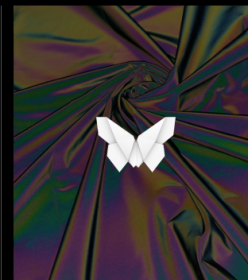

03

HAIRDAO
Global frontier research community leveraging AI and web3 to solve hairloss

04

Y2K FINANCE
Hedge or speculate on the risk of pegged assets on Arbitrum

05

REDACTED CARTEL
Metagovernance community creating value through novel incentives in DeFi

06

RARE EFFECT
Europe's first crypto art festival merging the physical and the virtual

FROM IDEATION TO LAUNCH & BEYOND

TO LAUNCH & BEYOND

DEVELOPMENT

We help you from simple feature launches to more sophisticated platforms and advanced AI and Web3 systems

ECOSYSTEM GROWTH

Build and launch applications that stick with your community and result in sustainable growth.

VENTURES

You have an idea or want to figure out what to build? We help you turn your venture into reality from ideation to launch.

MODULAR PRODUCT TEAMS

Our product are not only available as a full package but our excellent designer, developer and product managers can also join your team in a flexible fashion.

TECH TRANSFORMATION

Don't know where to start? With efficient methodologies and and first class industry insights we help you get a footing in the frontier.

OUR APPROACH

We accompany every step of the development cycle. You don't have to start at the beginning, we pick you up where you are. Our team will support you in creating solid working processes and first class product delivery. We help you navigate the uncharted waters of AI and Web3.

01 PRODUCT DISCOVERY

We delve deep into understanding your target audience and industry vertical, conducting extensive research to gain solid insights and serve as a strong foundation.

02 DESIGN & VALIDATE

With rapid prototyping and real world user testing we refine and iterate with you before we start building. Moving swiftly is fun for us and cheaper for you.

03 SCOPE

Once the product design and vision is agreed upon, we outline the technical requirements, deliverables, and timeline to establish achievable milestones together.

04 BUILD

The real fun begins and we focus on turning your concept into reality. With short feedback loops and constant communication streams we strive for a seamless development process.

05 LAUNCH

Game day! On launch experience matters - especially with frontier technologies. Lessons learned from launches throughout the years enable us to implement solid protocols.

06 MAINTAIN & IMPROVE

Don't want to part ways after launch? Our modular product teams can support your product growth and improvement processes for as long as needed.

MAKE CONTACT

We're excited to to build ground breaking products with you. Send us a message, and we will get back to you.
